7 Kills and 1 Murder

Chapter 1 by haylee

"Please stop" I said as my little Brother, Max tugged on my shirt. "Well I am really bored Jessica!" He yelled in his high pitched voice. My eyes rolled around the room. Max and I were at the adoption center with our parents and we were about to adopt a little boy named Tanner. Soon enough the door flew open and my parents stood up. Tanner is 12 years old, Max is 6, and I am 15. Tanner has brown eyes, black hair and is very pale. I wonder why they named him Tanner if he was so pale! Max jumped off my lap and went over to Tanner. "Hi new brother!" he squeaked. I just stayed in my seat and watched Max hug Tanner. My parents of course, were smiling and watching Max and Tanner. Tanner glanced over at me and gave me the weirdest smile, like he was about to stalk me for the rest of my life.

Chapter 2 by Joakim

The first few months was really awkward. He never stopped staring at me. I can't leave the shower with a towel on anymore because his gaze never leaves me. It's really uncomfortable. I tried talking to mom about it but she wouldn't listen.

told mine too" asked

Chapter 4 by -

'Mom, you've got to listen to me', I practically begged her. 'Tanner is really scaring me, I mean 'REALLY' scaring me.' Mom stopped what she was doing and grabbed me roughly by the arm.

'You've got to stop this nonsense , Jessica. Tanner is a part of our life now whether we like it or not'. Suddenly my mom's face turned ashen, and she quickly looked away. 'What do you mean, whether we like it or not?'

Mom steered me up the stairs and into my bedroom. She quietly closed the door so as to not be heard. She sat me down on my bed, which was littered with clothes and school books (I never was an organized person).

'What I'm about to tell you CAN NOT be told to anyone. Not your friends, but especially not your brother. You see, your father and I had no choice in adopting Tanner and bringing him home'.

'You had no choice mom?' But that doesn't make any sense. Of course, you had a choice.'

Mom looked me in the eyes. For the first time, I noticed that her eyes looked tired and red. She looked like she had aged ten years, at least. Why didn't I notice this before?

'Because Jessica. We were forced into this adoption.'

'But who forced you, mom?'

Suddenly, mom's whole demeanor changed. Her hands began to shake. I looked over at the doorway, and standing there was Tanner.

I forced them, Jessica

'What?' I said, I was so pu...
to talk it out?

I stood there wondering when It happened,
A highly pitch boy scream echoed the house and Tanner smiled then disappeared into the air.

I ran into the hallway towards the scream, it was now fading like someone was dying WAIT
WHAT? did I just think, please No.. No.

I ran into the kitchen a blood trail was stained on the tiles and dad was kneeling down onto a
body with a draining face.

Max. I jumped up and grabbed the phone 111! 'Hello how can we help you?'
the voice said 'we adopted a boy and now he is killing my brother!!!' I said without thinking,
'wait what?' the guy asked. 'My brother is dying!' I gasped 'Where are you?' he was intrigued
now. I told him my address and I could here sirens now. I was about to kneel down to Max when
another screen broke out.

Chapter 6 by The Harlequeen

I dashed back up stairs and there was mom, stretched out on the bedroom floor, Tanner
standing over her. His maniacal grin seemed to fill the room as he advanced over the blood
stained floor, grinning, always grinning. I turned and ran screaming out of the room but Tanner
was to quick. He tackled me in the hall and hissed in my ear. The words he said sounded like no
language on this earth. Then I blacked out.

As I came to I realized that I was not lying in the hallway, covered in blood. In as the world came
into sharper focus I realized I didn't seem to have limbs any more. In fact, I was floating. The sky
swirled with clouds over my head, like a time laps video. Then dark thunderheads rolled in and I
sensed another presence in my mind. It was Tanner.

"If you join me, we could be invincible, we could rule the world!"

I screamed and forced his snake-like words out of my head as the world faded to black again.

Chapter 7 by Blazing

I woke into this place. covered in a slime thing that was blood red. Maybe it was white original

and my blood stained it. Since the slime was thick and I coughed I looked onto my thigh since a
small hint of pain was coming from there. I could see the veins and
blood going to the slime. Tanner went into mind.

"I can heal you, or I can kill you... your choice", if he could do it maybe I could send a message?, Just about to try, I blacked out with pain.

I woke up with a person in-front of me, No, I shouldn't call it a person, More like a person with green skin and spikes instead of hair. 'It is time to make your choice'. If I chose one I would die, and another I would hate my life.

'Im never joining you' I shouted
suddenly she pulled out a gun and shot my head.
The pain was un-natural, I Died.

But I Woke Up In a Non-Earth Place. 'Welcome To What we call heaven' someone says.

Chapter 8 by Blazing

So I guess there is a such place called heaven. Well I got here so fast, at the age of 15, REALLY GOD!. I could not feel anymore pain but I could feel something really weird happening to my body, someone grabbed me and lifted me up. I opened my eyes and saw that they looked like 80s soldiers. They dragged me forward "You don't have to drag me" I said, but they ignored it! Soon they took me to this large tree, well the outside of it and there was a man standing above ground... this is too crazy.

One of the men who was dragging me said "A newcomer is here prepare the process". What process?, The man by the tree turned around. 'Omg' I whispered, It was Jesus. No kidding, then they shoved me into this chamber in the tree and needles pierced my skin. I blacked out.

Soon waking I found my self in the real world?. I was in this market, people were speaking Japanese I think, since for my birthday I got a Japanese language guid. I went up to someone and asked "where am I" in Japanese. They ignored me, and I asked someone else, they ignored me!.

Then I finally realised, I am not human anymore, I am a Ghost.

(Guys start another book after this book ends with a murder)
